Dear Sir / madam,

I am writing this letter to recommend the commissioning and engineering services of Shultz Engineering group. CMS recommends them to complete commissioning and energy efficiency projects.

Charlotte-Mecklenburg Schools used Shultz Engineering group to complete the commissioning on the East Mecklenburg High School Auditorium expansion and renovation project. CMS has used many commissioning agents over the years with varying level of success, this project went very well with little to no call back needed by the general contractor in terms of the mechanical and electrical systems. Additionally Shultz Engineering aided CMS (via Duke Energy) in examining our proto-type buildings, made recommendations to improve the energy efficiency of said prototypes to include reducing CMS operations, maintenance, and utilities.

I personally know Billy Austin with Shultz engineering and are very comfortable recommending him and Schultz engineering to provide commissioning and energy efficiency services. If you have any questions or concerns feel free to contact me at on my direct line at (980) 343-6891

Sincerely,

Bryan Steiner  
Senior Construction Engineer
